ABOUT

Uncompromising grooves, atmospheric depth.

Oscar Wandel is a DJ and producer from Berlin. His sound moves between deep, driving techno and atmospheric, texture-rich soundscapes – uncompromising on the dancefloor, attentive to detail.

> *"As a neurodivergent person I feel music with every sense. I see my sets as sound therapy – and as a path to ecstasy for mind and body."*

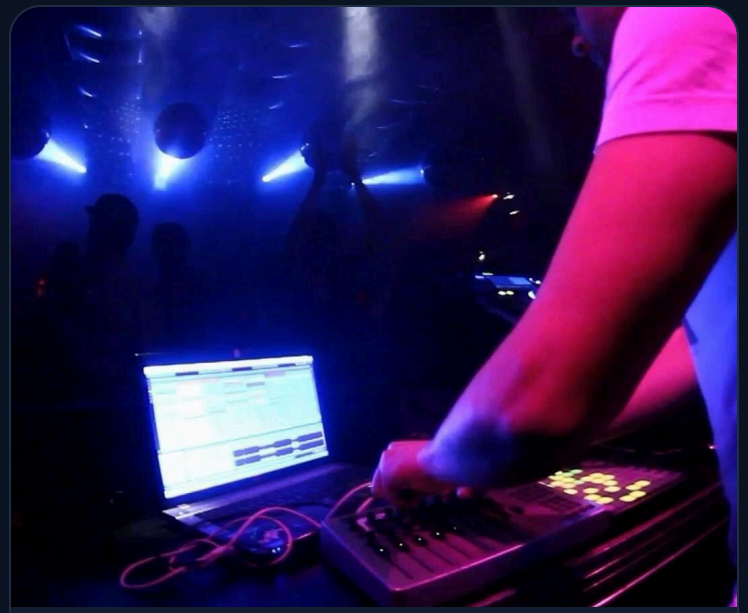

His roots are in hip-hop: as Don Brazo he rapped and produced with Schema F and Phonosapienz and carried the alias into the DJ booth. For around 20 years he has known club culture from both sides of the bar – on the decks from day one at Ritter Butzke via Weekend, Bar 25 and Kater Blau to Sisyphos and Renate, behind the bar and in security and awareness teams, at Fusion among others. His own events took place outdoors: open airs, Karneval der Kulturen and a self-built truck at Zug der Liebe. Since his personal turning point he plays as OscASMR on his label Quantum Waves – with the vision of opening a sober way into club culture through Sober Raves.

STORY

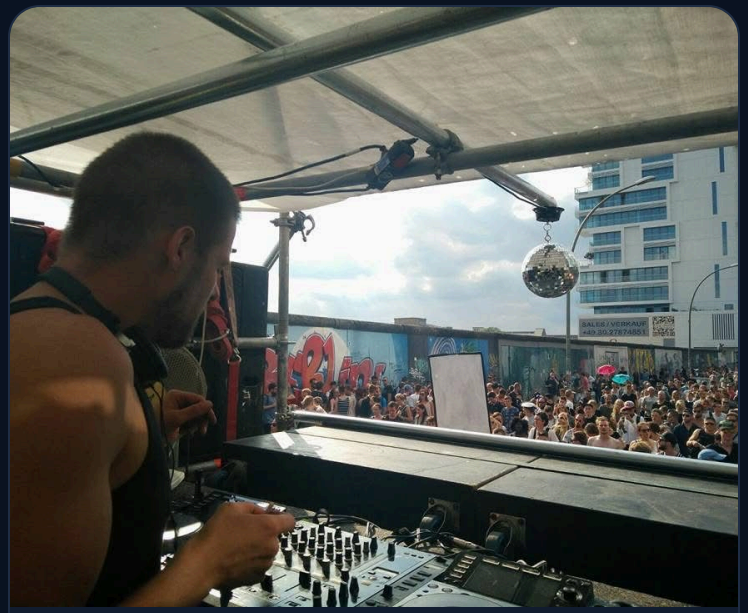

From Don Brazo to OscASMR.

01

Don Brazo

Hip-hop roots: rap and production with Schema F and Phonosapienz. The alias moved into the DJ booth – as a DJ and live producer in Berlin clubs.

02

Oscar Wandel

Around 20 years of club culture from both sides of the bar. His own events in the open air: open airs, Karneval der Kulturen and a self-built truck at Zug der Liebe.

03

OscASMR

The new chapter since his personal turning point: deep, driving techno on his own label Quantum Waves – with the vision of Sober Raves. And still 2Komponentenkleber with K.EULE.
